

About Crisil Integral IQ:

Crisil Integral IQ, a chosen partner for global financial institutions, helps clients uncover the critical insights that drive their confident decision-making. Our enhanced solutions, future-ready expertise, including AI and data science, support clients accelerate growth and achieve sustainable competitive advantage. As a part of Crisil, the world's leading insights-driven analytics firm and an S&P Global company, we are a bedrock of trust, known for our sophisticated knowledge and unparalleled institutional experience across domains and asset classes.

We are looking for someone with 3 to 5 years of experience in equity research, ideally having an experience in the semiconductor industry and, preferably, proficiency in Mandarin.

Key Responsibilities:

- Conduct bottom-up, fundamental research on publicly traded companies across sectors and regions.
- Analyze company financials, earnings reports, industry trends, competitive positioning, amongst others
- Perform primary research including expert interviews, conference calls and management calls.
- Prepare end-to-end reports covering Industry overview, management details, etc.
- Track news, macroeconomic indicators, and events impacting portfolio holdings and coverage universe.
- Maintain organized research materials, databases, and documentation in internal systems.
- Exposure to contributing to sell-side earnings reports/ Initiation reports or forming opinions from sell-side earnings reports is preferred.

Qualifications:

- Bachelor's degree in Finance, Economics, Accounting, or related field; MBA or CFA preferred.
- 3-5 years of experience in equity research (buy side/sell side), investment banking, or private equity.

- Strong understanding of financial statements, modeling, and valuation techniques (DCF, comparables, etc.).
- Excellent analytical, critical thinking, and communication skills.
- Strong proficiency in Excel, PowerPoint, and data services (CapIQ, Alphasense etc.).
- Ability to work independently in a fast-paced, high-performance environment.
- Deep curiosity about businesses, markets, and investment dynamics.

Preferred Qualities:

- Wide sector expertise is a plus; ability to understand base functionality of different industries
- Prior buy-side experience or hedge fund exposure is strongly preferred.
- Self-starter mentality with a rigorous attention to detail and a high level of intellectual integrity.
